About us	Description	This is the website for Another Language, a performing arts company founded in 1985 by Beth and Jimmy Miklavcic. A US-based company, their aim is to combine different art forms innovatively, whilst broadening access to community arts education by utilising the latest communications technology, such as the Access Grid, and video streaming technologies. The website provides information about the company's work and projects, regularly updated in the form of a PDF newsletter, of which archive copies are available dating back to 2004. Other features of the website include a selection of posters from previous projects, dating back to 1986, details of their education programme, and a members' section.
